

Heltwate School

Covid 19 Catch-up Strategy

2020 -21 Nov 2020

What catch-up funding is for;

The government announced £1 billion of funding to support children and young people to catch up lost time after school closure. This is especially important for the most vulnerable and disadvantaged backgrounds.

Special schools will get £240 for each place for the 2020 to 2021 academic year.

Heltwate School Catch-up budget 2020 – 21 is **£43,680**

Payment schedule

Schools will get funding in 3 tranches.

- Autumn 2020 – this is based on the latest available data on pupils in School.
- Spring 2021 – based on updated pupil and place data. This payment will also take account of the initial part payment made in autumn 2020 so that schools will receive a total of £140 per place across the first 2 payment rounds.
- Summer 2021 term - a further £100 per place.

To support schools to make the best use of this funding, the Education Endowment Foundation (EEF) has published a [coronavirus \(COVID-19\) support guide for schools](#) with evidence-based approaches to catch up for all students. This is reflected in the plan below.

Issues Identified from September 2020 as barriers to learning (e.g curriculum gaps / attendance / well being)

A1	Readying the school for further home learning needs (E.g. a second lockdown)
A2	Ensuring all students can access online learning at home
A3	Ensuring our students are making social, emotional and academic progress following the lockdown period
A4	Ensuring teachers are able to continue to deliver high quality teaching and learning
A5	Understanding T&L strategies within the 'new normal' way of teaching
A6	Maintaining a high attendance % for all students is a priority
A7	Wellbeing: Students adjusting to the new school routines and structures
A8	Wellbeing: Concerns around anxiety and safeguarding issues following the lockdown period
A9	Ensuring parental engagement levels are maintained during the 'virtual meeting' era
A10	The new plans for the school day create a number of logistical difficulties which could hamper high quality teaching and learning if we are not careful
A11	Students potentially dis-regulated due to interruption of daily routines
	Following possibly more mainstream – but can we evidence any?

B1	Gaps in knowledge that have appeared between March and July 2020
B2	Gaps in curriculum as identified by class teacher
