

Pupil Progress and Expectation

Academic year 2022-2023

Pupil Progress dialogues 2022- 2023

“Our overriding assessment is based on teacher judgements through professional conversation, dialogue and scrutiny, backed up with evidence on Earwig.”

As we have a whole school child-centred approach, it is clear that no two children can be assessed and compared against the same outcomes.

We introduced Pupil Progress dialogue meetings to enable us to monitor the achievements / progress of each child in each class against clear and challenging teacher expectations which will be based on each pupil's starting point and future goals, dreams and aspirations.

The first set of pupil progress meetings took place during the last few weeks of the Autumn term 2022, following a slightly different approach from last academic year (our first year of running Pupil Progress meetings.) This term, the Deputy Headteacher met all five Pathway leads, and they in turn met all their Pathway teachers to carry out the meetings.

Teachers were asked to provide copies of all their pupils' Individual Learning Plans (ILP's) and the Deputy and Pathway leads spent time looking on Earwig for evidence to support the pupil's achievements and progress, as well as work book reviews where applicable, to compare the evidence to the ILP statements made.

The meetings enabled a professional dialogue to take place, discussing each individual pupil and the achievements made over the term so far - using evidence from Earwig and teacher knowledge and judgements. During the meeting pupils' achievements and targets were discussed in depth. If it was deemed that a child was not making sufficient teacher expected achievements this was documented and clear next steps and actions were recorded to show how successful achievement by next term could be reached.
