

# Acceptable Use Policy Agreement

Created By: Mike Nelson  
Coordinator: Mike Nelson  
Nominated Governor: Heather Mizen

Review date: June 2018

## School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This Acceptable Use Policy is intended to ensure:

- That staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- That school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- That staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for students learning and will, in return, expect staff and volunteers to agree to be responsible users.

## Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that students receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school.
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website / VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with students and parents / carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices (laptops / tablets / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School LA Data Protection Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based protected and restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or student data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the School:

- I understand that this Acceptable Use Policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff / Volunteer Name: .....

Signed: .....

Date: .....

### **Computer use – Student Rules**

Technology is a great tool to find information and to communicate with others. The school encourages it is appropriate, effective and safe use. All users of technology in the school must agree to certain rules and will only use the equipment and software as instructed

### **My Responsibilities**

I understand that I have rights and responsibilities in using ICT and will act responsibly when using technology, computers or the internet.

I will report any suspected misuse or problems to a teacher

I will make sure there is permission to use any material that I find

I will make sure that I maintain a healthy lifestyle and do not spend too much time using technology

### **Cyberbullying**

I understand that the school will not accept bullying in any form

I will be careful with all communications making sure that anything I write cannot be mistaken as bullying

I understand that I should report any incidents of bullying

### **Access to Internet Sites**

I will not try to access sites that are blocked or that are unsuitable for use in school.

### **Communication – email, social networks, blog etc.**

I will be careful in my communications making sure that nothing I write is offensive.

I will not write anything that could be seen as insulting to the school.

### **Mobile Phones**

I will only use my mobile phone as directed by my teachers

### **Removable Media, eg, CDs, memory sticks**

I will use all removable devices appropriately.

## **Sanctions**

I understand that the school will monitor my use of computers and other technology

I understand that the school may investigate incidents that happen outside school

I understand that there are regulations in place when students use ICT and that there are sanctions if I do not follow the rules

## **Digital/Video Images**

1. Members of staff will only use school equipment to make digital/video images of students or adults associated with the school. No image will be made using personal equipment
2. Any image made will be destroyed when no longer needed for the activity for which it has been produced
3. All parents and carers will be asked on their child's admission to the school to indicate if they do not wish images of their child to be used in published materials.
4. Any images of students which are published will be used in a manner which does not allow identification by name. Exceptions to this guideline will only be made when publication of an image is linked to a particular achievement of a student or group of students and specific permission has been obtained from the family or families concerned.
